Operator Comments:

Nickel Road requests the approval of an updated facility layout drawing (attached) and associated equipment count updates (noted below). The total tank count will remain unchanged as approved on the Form 2A. In addition to the reorientation of the tanks within the containment berm, one of the permitted oil tanks will be switched to a produced water tank in order to safely handle the anticipated production from the 2 wells on this location. No additional surface disturbance is required for this change.

Updated Facility Counts:

Oil Tanks: 14

Produced Water Tanks: 5

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
