**COGCC Comments**

Comment	User	Date
<p>At time of inspection location appears to be in compliance with COGCC rules.                      At time of inspection unable to reach wellhead due to spill mitigation in progress on tank battery, cattle, and electrified fence around location.                      At time of inspection company representative informed me that base beam from workover rig was still on location but was going to be removed this week.                      At time of inspection weather conditions were cold, slight wind, overcast, recent snow.</p>	medinaj	02/17/2021
