Dear COGCC and CPW,

Please include attached information and data on noise issues related to Crestone's Dreamweaver locations. Please see attached for data and complaint addendum.

Summary:

Sound measurement recordings were conducted by FRNBES at a site located about 1,420 feet from Crestone's Dreamweaver well pad prior to oil and gas development activity (baseline measurements from 8/7/20 to 8/10/20; average 39.5 dbA) and also during well stimulation. Sound levels during well stimulation activity exceeded both Weld County and current COGCC maximum allowable levels (50dbA) for residential dwellings during the time period between 7P to 7A. As shown in the data attached below, sound measurements measured in the 60 to 70dbA range for extended durations.

Thank you,

Dana Bove as president and representative of FRNBES

Dear COGCC and CPW:

Front Range Nesting Bald Eagle Studies (FRNBES) is filing a NEW complaint to the COGCC regarding concerns about adverse impacts from operations at Crestone's "Dreamweaver" location to nearby high priority habitat for bald eagles (see attached [Submitted 1-21-21 Middle Roost COGCC complaint FRNBES.pdf](#)). Please also see attached Exhibits that accompany this complaint: [Exhibits 1 to 8 Submitted 1-21-21 Middle Roost COGCC complaint FRNBES.pdf](#) AND [Exhibit 9 Submitted 1-21-21 Middle Roost COGCC complaint FRNBES.xlsx](#).

Please also be advised that this NEW complaint **now supersedes a previous complaint filed on November 24, 2020 (Document number 200449290)**. There are several reasons for filing the new complaint: 1) the new complaint now falls under the new COGCC rules adopted on January 15, 2021; 2) we have included new scientific information in the new complaint, and the water pumping operations—the subject of the initial complaint—continue; 3) we have not received a written response to our initial complaint; and 4) under the new COGCC rules, groups such as FRNBES will be afforded new Standing consideration for a hearing request by the professional Commission—if a hearing is so desired.

Sincerely,

Dana Bove as president and representative of FRNBES
