RE: #2-19 Peroulis
N1/2 NW NW 19-8N-92W

Gentlemen:

On September 12, 1984 the Commission issues Order No. 289-6 approving the subject well and on October 9, 1984, Permit No. 84-1458 was issued for the well. Since that time we have contacted you several times regarding the information on the well. To date we have had no response from you.

Rule 306 of the rules and regulations of the Commission provide that within thirty (30) days after the completion of any well, the owner or operator shall transmit to the Director the well completion or recompletion report and log (OGCC Form 5). Rule 305 provides that notice must be given to the Director when an operator expects to recomplete a well, abandon a well or change plans. On OGCC Form 4, we need a final P & A and cement verification. Further, Section 34-60-121 of the Colorado Revised Statutes states that any person who violates any rule of the Commission shall be subject to a penalty of not more than one thousand dollars (\$1,000.00) for each violation and for each day that such violation continues.

I am not interested in seeking a penalty, but merely bringing your well file up-to-date; however, if I have received no response from you within fifteen (15) days following receipt of this letter, I intend to take the matter to the Commission.
