Corrective Action: Per previous CA's Operator shall provide sample location diagram, summary table of analytical results compared to table 915-1 standards, analytical lab reports, disposal manifests and gate tickets, and documentation on the source/location and volume of the clean fill dirt imported on site via supplemental Form 19 no later than 45 days from the Spill Report Date (10/29/2020).

Date: 10/29/2020

Response: FACTUAL REVIEW REQUEST

Basis for Review: Action requested was already completed prior to the inspection

Operator Comment: Comments provided by the inspector are not accurate and do not reflect actual CA's associated with Spill/Release ID 478005. CA's required in Insp Doc #690102098 were addresses with the submittal of Supplemental Form 19 Doc #402495172. Additional CA's related to Spill/Release ID 478005 were addressed with the submittal of Form 27 Doc #402537539. No soil samples have been collected from this location as excavation of impacted soils has yet to be completed.  
Inspector inaccurately notes, "Per previous CA's Operator shall provide sample location diagram, summary table of analytical results compared to table 915-1 standards, analytical lab reports, disposal manifests and gate tickets, and documentation on the source/location and volume of the clean fill dirt imported on site via supplemental Form 19 no later than 45 days from the Spill Report Date (10/29/2020)." Table 915-1 standards were not applicable until the January 15, 2021 rule change effective date. Table 915-1 was never referenced in historical CA's associated with Spill/Release ID 478005.
