General Comment:**COGCC Inspection Report Summary**

On Monday 3/8/2021 at approximately 1100, I, Inspector Scott Ramsey, conducted a routine inspection at Caerus B33NE, at Location # 335370 in Garfield county Colorado.

While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within a CPW Density/High Priority Habitat and Wildlife Management Area. Operator (Caerus) has provided documentation of their Best Management Practices for Sediment Tracking Controls.

During this inspection the following possible compliance issues were observed:

1. Tank battery signage does not meet requirements of new rule 605.e
2. Debris in tank containment
3. Lack of stabilization/compaction on location and tracking off of location

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
