## COMMENTS:

This Sundry is being submitted to address a historic incident that is being identified as an "unresolved spill/release" in COGCC's COGIS database. The incident is being associated with Location ID 335514 which is an active Grizzly Operating location and Facility ID 299071 which is a producing well on the referenced location. The incident is being identified as an "unresolved spill/release" associated with the former operator Highpoint Operating Corporation (formerly known as Bill Barrett Corporation) and their assigned Operator Number 10071. This incident occurred on May 30, 2011 and the Form 19 can be referenced under COGCC Document Number 2214308 which is also the COGCC Spill Number.

Grizzly Operating was able to locate historical documentation which indicates that Bill Barrett Corporation completed the remediation and was requesting closure of this incident. This incident pre-dates the current eForm system and all documents were sent via email to the assigned Environmental Protection Specialist for review and processing during this time. Grizzly Operating was unable to locate a copy of the submittal email. The referenced historical documentation has been attached to this submittal and Grizzly Operating is formally requesting that the incident being identified in the COGIS database as an "unresolved spill/release" be closed and given a No further Action determination by the COGCC.

## H2S REPORTING

**Data Fields in this section are intended to document Sample and Location Data associated with the collection of a Gas Sample that is submitted for Laboratory Analysis.**

**Gas Analysis Report must be attached.**
