Off-Location Flowline

The Flowline Report, Form 44, shall be submitted to register, report realignment, report removal from service, provide pre-abandonment notices, or report abandonment of Off-Location Flowlines, Flowline Systems, Produced Water Transfer Systems, or Crude Oil Transfer Lines or Systems as required by the 1100 Series Rules. The Form 44 shall also be submitted to register, report realignment, or report abandonment of Domestic Taps, and to report Grade 1 Gas Leaks from Flowlines per Rules 610 and

Operator Information

OGCC Operator Number: 95520 Contact Person: Dave Weinert
Company Name: WESCO OPERATING INC Phone: (307) 577-5329
Address: 120 S DURBIN STREET Email: davew@kirkwoodcompanies.com
City: CASPER State: WY Zip: 82602
Is the Operator a Tier One member of the Utility Notification Center of Colorado (CO811) that participates in Colorado's One Call notification system? Yes ☒ No ☐

OFF LOCATION FLOWLINE Out of ServiceDate: 11/30/2006☒ Entire Line Removal☐ Partial Line Removal**Description of Out of Service:**

This line was registered as an injection line, but has not been used for any purpose at least since the field was purchased by Wesco in September, 2010. The Trelevan #7 water disposal well was converted to a water well in 2006 by a previous operator. The "out of service" date for the line as listed above is based on the date indicated on the sundry (document # 1738183) submitted to the COGCC by a previous operator as the date that the conversion from water disposal well to water supply well was completed. The Trelevan #7 former water disposal well/water well was plugged in June, 2020. The COGCC engineers comments on the approved well abandonment report (COGCC document #402438210 - approved 10/8/2020) states in part "Converted to water well in 2006. Not COGCC jurisdiction". Wesco has placed this line in Out of Service status because we believe it meets the COGCC definition for "Out of Service".

OPERATOR COMMENTS AND SUBMITTAL

Comments

This Form 44 provides the geodatabase for the registered off location flowlines at this field. These flowlines were previously registered with the COGCC. The off location flowlines described in the attached geodatabase were put into operation prior to May 1st, 2018. These flowlines locations as depicted are estimated from Google Earth. The geodatabase was generated from Google Earth imagery

We have also included as a single document the corrosion protection and integrity management plan for the lines included in the registration for this field.

This form also includes a change of service notification for the Trelevan #7 injection line.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.

Signed: _____ Date: 11/24/2020 Email: davew@kirkwoodcompanies.com
