Facility Name: Wellhead Line Number: 21NWSW  
Qtrqr: NWS Sec: 21 Twp: 2N Range: 66W Meridian: 6  
W  
Latitude: 40.121440 Longitude: -104.789870

**CORRECTIVE ACTIONS:**

1 ☒ CA# 145762

Corrective Action:

Date: 01/15/2021

Provide chronology and brief description of operator's actions with respect to report of spill/release related to this flowline (from complainant or family members) including dates, times and results of any flowline integrity investigations performed on this flowline in the the two years previous to today (9 January 2019 to 8 January 2021).

If operator has not successfully pressure tested the flowline between the well production facilities since being notified by the complainant of the possible spill/release the a pressure test must be performed in response and as investigation of spill/release that threatened or harmed soil and vegetation.

Contact COGCC engineering integrity Inspector with schedule of any pressure testing to be done in response to this report with a minimum of 48 hour notice.. Provide pressure testing charts for this active flowline at this site; email to COGCC Inspector (See rule 1102.O).

Response: CA COMPLETED

Date of Completion: 01/13/2021

Operator Comment: KPK performed integrity tests of associated well flowline and facility dump lines on October 2, 2020 in response to complaint. Test results showed not integrity issues. Based on the results of the performed pressure tests, KPK has concluded its investigation.

COGCC Decision: Approved via an AMI

COGCC Representative: operator provided wheel chart of pressure test. Test not witnessed by COGCC staff

#### OPERATOR COMMENT AND SUBMITTAL

Comment:

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.

Print Name: Max Knop
