Comment: Heavy Tracking onto county road from lease road is occurring. No tracking BMP are present at the time of inspection. Run-on is not controlled, and storm water is allowed to move through location. Sediment migration is ongoing on the north side of location. Storm water from location and the main lease road is directed to the bottom of the lease road where the tracking is occurring.

Corrective Action: Install or repair required BMPs per Rule 1002.f.(2)C

Date: 03/19/2021

Pits: ☒ NO SURFACE INDICATION OF PIT
