Comments:

Attention Chris Binschus:

A Form 10 Change of Operator document has been submitted for the well to reflect PDC acquisition of the site. The centralized facility is permitted separately (Location ID 330117) alongside the plugged and abandoned SWAFFORD # 11-11 well. The site was accessed via a lease road that has been fully superseded by the Anchor Point RV and Boat Storage facility. Since 2010, the access road has been in use by the land owner to access an industrial yard southwest of the well and as a connection to their residential driveway. As this road was not constructed for the well, it is not considered as part of the disturbance area. All the portions of the disturbance area have been permanently stabilized. Please see the attached report for additional reclamation activities, details on the completed vegetation assessment, and photo documentation.
