

North Parachute Ranch EP Waste Management Facility [Centralized E&P Facility] Annual Report: 2020

2020 SUMMARY

The North Parachute Ranch EP Waste Management Facility (the Facility), also known as Middle Fork Water Facility, permitted as a non-commercial Centralized E&P Facility (120803) in SWSW Sec 30, T5S, R95W. The Facility can store produced water in 3 tanks, which are situated in cement containment with leak detection. Produced or Flowback water may pass through treatment and is sent to Class II disposal wells or completions operations through an on-facility pumping unit. In the case of fresh water, it may pass through the pumps, but not through treatment.

Inflow: 6,635,919 bbl.

Outflow: 6,750,023 bbl.

Caerus had proposed a water share, which was approved in document numbers: 402293711, 402293774, 402293803, 402293809, 402293814, 402293829, 402293836. The Annual Report for the proposed Caerus/TEP Water Share from Starkey Pond was submitted in document 402415955. Due to water balance, Zero (0) barrels of water were transferred to Caerus from TEP.

2021 UPDATE AND FUTURE OPERATIONS

Caerus is not expected to change the design or basic operations at the Facility during 2021. The Facility will continue to receive produced water, treat it and send to completions operations or permitted Class II disposal wells. The pond at Middle Fork continues to be fresh water only.

MONITORING WELLS AND SAMPLING LOCATIONS

There are nine (9) permitted monitoring wells near the North Parachute Ranch EP Waste Management Facility. In addition, there are sampling points along Parachute Creek. Water samples are taken at least bi-annually.

INSPECTIONS, SPILLS, RELEASES OR ENFORCEMENT ACTIONS

Caerus frequently monitors activity at Middle Fork Water Treatment Facility, with daily on-site presence. Walk-throughs of the facility are conducted daily at a minimum. An inspection occurred on 2/20/2020. All 3 corrective actions have been addressed. No NOAVs, Complaints, Spills or Remediations were identified during 2020.

INJECTION WELLS

Water that passes through the Facility may go to the following injection wells:
