General Comment:**COGCC Inspection Report Summary**

On Wednesday 3/31/2021 at approximately 1000, I, Inspector Scott Ramsey, conducted a routine inspection at TEP RMV 232-28, at Location # 324163 in Garfield county Colorado.

While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat and Wildlife Management Area. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for tracking pad.

During this inspection the following possible compliance issues were observed:

1. Location shows signs of lack of stabilization/compaction
2. Erosion around culvert on access road

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
