FIELD OPERATIONS NOTICE

The Form 42 shall be submitted as required by Rule, Notice to Operators, Policy, or Condition of Approval. A Form 42 Update shall be submitted to revise the scheduled date or time on a previous Form 42 - Advance Notice of Field Operations. A Form 42 Update must be for the same well, location, or facility and for the same Field Operation as a previous Form 42. NOTE: Operator's Contact for Advance Notices of Field Operations should be available 24 hours a day, 7 days a week and should have the most current scheduling information for the operation. Operator's Contact for other notices should be able to respond to questions regarding the reported information.

Update of a previous Form 42 Notice NO

FLOWLINE PRE-ABANDONMENT - 30-day notice

On-Location Flowline will be removed on this date: 05/14/2021

Is the estimated duration of the Flowline Abandonment operations for this Location anticipated to last for longer than one day? No If YES, describe the estimated anticipated duration of these operations:

I really have no idea. I'm told you folks have to decide whether or not the line needs to be pulled or cut and capped. The segment is a half mile segment to the East of a live line that will remain in service. This is a rural spot in an extreme drought area. There are no inhabitants for multiple miles. The location is 2+ miles from the North end of the NeeNoShe Reservoir. I have maps prepared if needed.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct and complete.
