FLOWLINE PRE-ABANDONMENT - 30-day notice

On-Location Flowline will be removed on this date: 05/17/2021

Is the estimated duration of the Flowline Abandonment operations for this Location anticipated to last for longer than one day? Yes If YES, describe the estimated anticipated duration of these operations:

The plan is to PTA the wellbore, remove the surface equipment and remove the riser in essentially the same timeframe. We propose to abandon the flowline in place. This is an extremely rural and unpopulated area. It is also in an area of extreme drought and is very difficult to get vegetation growth, so its highly desirable to do as little harm as possible on the front end. Nearest domicile is 2.5 miles to the west.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct and complete.
