**General Comment:**

**COGCC Inspection Report Summary**  
On Thursday 4/8/2021 at approximately 1200, I, Inspector Scott Ramsey, conducted a Follow up inspection at Grizzly/TEP GGU 6-30, at Location # 335264 in Garfield county Colorado. While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat and Wildlife Management Area. Also location is within or in close proximity to the 411 water protection area. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for tracking pad. C/A's from previous inspection document # 700702128 have not been completed, there is still no evidence of tracking controls and location shows signs of lack of stabilization and lack of compaction. C/A date remains the same 2/4/2021. During this inspection the following possible compliance issues were observed:  
1. Location show signs of lack of stabilization/compaction  
Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
