Facility ID	Type	Status	Status Date	Well Class	API Num	Facility Name	Insp Status
479723	TANK BATTERY	AC	04/06/2021		-	Juhan Tank facility	RI

General Comment:

Interim Reclamation & Stormwater focused Inspection. EPS J.Heil created TEP Juhan Tank Facility ID on 4/6/2021. There are no Documents or records on File for this Location. Aerial review shows site as constructed by 2009. Aerial 2006 shows no Location built; intervening year aerals are not available. Size of Location disturbance from GE is approx 1.45 Acres.

Field Inspector is included on this inspection Re: Location Equipment Summary.

Comment: Re: Open cellar housing equipment at NE portion of Pad (Photos#2,3,4 in Photo log attached). At site visit 4/5/21 discussed need for wildlife egress or fully covering cellar with Pumper, met on site. Board has been placed in Cellar as of Insp date 4/15/21. The Escape Board is not in position/angle to allow means of Wildlife egress (may be too short, need redesign, scoring of surface etc).

Corrective Action: Adjust/revise board to allow egress by wildlife.

1003a. Waste and Debris removed? _____

Comment _____

Debris weeds (Russian thistle) have broken off and blown into equipment areas. Senesced Debris weeds, not yet broken off, are in place in other areas of site. Weed infestation appears light, but should be closely monitored in coming growing season.

1003 f. Weeds Noxious weeds? _____

Comment Surrounding berms and shallow cut slope are composed of heavily rock/gravel material, and overall appear stable. Russian thistle has grown along base of N/E slopes. Vegetation on slopes is very sparse and should be evaluated later in season for presence of desirable species and weed control program stepped up to prevent maturation of Debris weeds.
