427211	LOCATION	AC	01/06/2012		-	Remote Temp Frac Pad RD-11	RI

General Comment:

This is a Reclamation Inspection for Loc#427211. Site was Constructed in 2012 as a Temporary Frac Pad. Other Operator is contact on Insp, as in discussion, Caerus indicated, that this Pad was mistakenly left out of Locations transferred from Encana to Caerus in 2018. Caerus is working to complete the Ownership transfer and reviewing conditions and options for Location.

Reclamation - Storm Water - Pit**Interim Reclamation:**

VEGETATIVE COVER _____

Comment:

	<p>Site was Constructed in 2012 as a Temporary Frac Pad. Location remains in Active Status. From aerial review, it appears site has not been utilized as Frac Pad, or for any operations since 2012. The graveled pad is infested with Debris weeds, at this time with desicated old growth. Encircling berms appear weed free at present; though vegetation is just greening up.</p> <p>Caerus has indicated that on completion of trasnsfer, they will be requesting a 502b Variance for Location.</p>	
Corrective Action:	<p>Perform Final Reclamation per COGCC 1004 Rules by 11/15/21. Old growth weeds that have become Debris, to be removed ASAP, or by 5/14/21. Weed control program to be employed at site until reclamation activities commence.</p>	Date 05/14/2021
Overall Final Reclamation	Fail	Well Release on Active Location <input type="checkbox"/> Multi-Well Location <input type="checkbox"/>
