INITIAL ACTION SUMMARY

Description of initial action or emergency response measures take to abate, investigate, and/or remediate impacts associated with E&P Waste.

KPK is requesting to remove the 100 bbl produced water storage vessel, which meets the definition of a partially buried vessel, from the JOHNSON #32-30 Tank Battery. The well associated to the tank battery is being P&A'd and the facility is planned to be removed. The partially buried storage vessel will be permanently closed per Rule 905.b.

PROPOSED SAMPLING PLAN

Proposed Soil Sampling

Will soil samples be collected as part of this investigation? (Number, type (grab/composite), analyses, and locations of samples):

Five (5) discrete soil samples will be collected from the base of the produced water vessel (~3 ft below ground surface) to verify soil was not impacted from the operation of the partially buried produced water vessel. Analysis for grab samples included Table 915-1 analytes. See attached site map for partially buried vessel location and proposed sampling locations.

Proposed Groundwater Sampling

Will groundwater samples be collected as part of this investigation? (Number, analyses, and locations of samples):

Proposed Surface Water Sampling

Will surface water samples be collected as part of this investigation? (Number, analyses, and locations of samples):

Additional Investigative Actions

Additional alternative investigative actions described in attached Site Investigation Plan (summary):
