**OPERATOR COMMENT**

Please forward onto John Heil

This Supplemental Form 27 is being submitted to provide 1Q-2021 status updates in accordance with COGCC Rule 913.e (Quarterly Updates). UGC is currently in the process of evaluating remediation equipment repairs as the SVE solar panels were destroyed during a wind storm in November 2020. Winter weather has delayed the anticipated March 2021 start date. The revised anticipated start for active remediation is May/June 2021.

UGC is preparing a plan to conduct borehole sampling to determine current hydrocarbon concentrations within the subsurface soils to evaluate the effectiveness of on going SVE remediation.

In accordance with COGCC Rule 915.f, UGC is requesting to manage this spill remediation under the previously implemented Table 910-1 thresholds as the previously submitted and approved Site Investigation & Remediation Plans (Form 27's) and ongonig associated work were submitted prior to January 15, 2021.

I hereby certify all statements made in this form are to the best of my knowledge true, correct, and complete.
