General Comment:

On 4/22/2021 Catherine Roy conducted a reclamation and stormwater inspection. During this inspection the following compliance issues were observed:

-Stormwater and erosion controls need to be installed and maintained throughout the project area by 5/30/2021.

-As this location is shared between two operators, it is the responsibility of both operator's to ensure compliance with COGCC rules.

See below, and attached photos for additional detail.

TRANSECT RESULTS OF REFERENCE AREA% _____

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

1003 f. Weeds Noxious weeds? _____

Comment Revegetation is progressing within the majority of the reclamation areas. However portions of the cut-slope remain bare and need stabilization (see below). Weeds were not observed at this time.

Corrective Action Date _____

Overall Interim Reclamation**Final Reclamation/ Abandoned Location:**

Date Final Reclamation Started: _____ Date Final Reclamation Completed: _____

Final Land Use: _____

Reminder: _____

---------------------------	--	--

Storm Water:

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment

Comment: Stormwater BMPs throughout the project area are full of sediment and need maintenance or are no longer functioning. Bare soils on the well pad cut-slope need stabilization until stabilized with desirable perennial vegetation. Cobble checks on the access road are overflowing with sediment and are not adequate BMPs for the slope of the access road.

Corrective Action: -Stormwater and erosion controls need to be installed and maintained throughout the project area by 5/30/2021.

-More robust stormwater BMPs are needed along the access road.

-Bare soils on cut-slope need erosion control measures such as jute mat, or straw blanket, etc. Care needs to be taken to avoid disturbing established vegetation on the cut-slope.

-All other BMPs within the project area need maintenance.

Stormwater controls need to be selected, sized, installed, and maintained according to best engineering practices such as those described by CDOT in their erosion control manuals.

Date: 05/30/2021

Pits: ☒ NO SURFACE INDICATION OF PIT
