Comments:

The associated centralized facility, Hazen 23, 24-28 (Location ID 281040), is permitted separately and has been fully reclaimed and returned to cropland. The location was accessed via a preexisting north-south crop access road located off of CR 76. This road remains for its historical purpose of field access. All portions of the access road specific to the Hazen 23-28 well, have been fully reclaimed and returned to cropland.

Operator Comments:

Please route to Chris Binschus.

Attached is the final reclamation inspection for the former Hazen 23-28 location. The former well site is located within a center pivot irrigated corn field. The corn within the disturbance area has high vigor and density that is comparable to the surrounding reference crop. No compliance concerns observed.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
