General Comment:

COGCC Inspection Report Summary

On Tuesday 5/11/2021 at approximately 1100, I, Inspector Scott Ramsey, conducted a follow up inspection at TEP Dixon B, at Location # 311696 in Garfield county Colorado.

While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat and Wildlife Management Area. Also location is within or in close proximity to the 411 water protection area. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for a tracking pad, there is no evidence of a tracking pad at time of inspection. Some C/A's from previous inspections documents # 700701953 and 700702263 have been completed. Therefore C/A dates remain the same.

Inventory on location remains the same as previous inspection.

During this inspection the following compliance issues were observed:

1. Location still shows signs of lack of stabilization/compaction on pad and cut slopes (C/A date 1/5/2021)
2. Unmarked dead men from previous inspections (C/A date 1/5/2021)
3. Unused chemical tank at well heads

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
