Inspection Photos  
Operator Name: LARAMIE ENERGY LLC - 10433  
Location ID: 335091

**Photo 5:** Photo taken from the production area, facing north.. Photo shows control measures to stabilize the production area are missing or insufficient.

**Photo 6:** Photo taken from the production area, facing north.. Photo shows control measures to stabilize the production area are missing or insufficient.

## Inspection Photos

Operator Name: LARAMIE ENERGY LLC - 10433

Location ID: 335091

**Photo 7:** Photo taken from the production area, facing east. Operator has installed wattles along the base and upper portions of the cut slope; no other control measures were observed to be used in conjunction with the wattles on the slopes. Photo shows areas where erosion on the cut slopes have covered multiple sections of wattles. BMPs to stabilize/protect remain missing or insufficient.

**Photo 8:** Photo shows wattles along base of cut slope; wattles do not appear to have been properly trenched and backfilled in accordance with good engineering practices.
