**General Comment:**

Environmental inspection of site of spill 476532 with open site investigation and remediation project 14115 at site of spill.  
 ANY CORRECTIVE ACTION(S) FROM PREVIOUS INSPECTIONS THAT HAVE NOT BEEN ADDRESSED ARE STILL APPLICABLE.  
 waste stockpile volume greatly reduced  
 Excavation slightly expanded at top edges

**Inspected Facilities**

Facility ID: 476532 Type: SPILL OR API Number: - Status: CL Insp. Status: CL

**Environmental**

**Waste Management:**

| Type              | Management   | Condition | GPS (Lat) (Long) |
|-------------------|--|-----------|------------------|
| Oily Soil         |  |           |                  |
| Comment           | <p>See attached photos<br/>                     The observed storage of waste soils show that the operator has not taken measures to properly store, handle and manage E&amp;P waste to prevent contamination of stormwater, surface water, groundwater and soil as inadequate controls around impacted soils stockpile were observed and soil/groundwater impacts are reported to remain in place and have not been excavated at present.</p> |           |                  |
| Corrective Action | <p>Comply with rule 913.b(5)B.iv<br/>                     corrective action date remains as in previous inspection 697601264.</p>  |           | Date: 05/20/2021 |

**Spill/Remediation:**

|                    |  |  |                  |
|--------------------|--|--|------------------|
| Comment:           | <p>Groundwater is present in the excavation and in contact with impacted soils and free hydrocarbons that were present on groundwater in excavation at previous inspection not visible at this inspection</p>  |  |                  |
| Corrective Action: | <p>Document any removal of E&amp;P wastes from site that has occurred since spill was first reported (5/21/2020) by providing haul tickets and manifest for Waste Disposal Per rule 905.b.(3)<br/>                     Provide documentation of transport of exploration and production wastes to offsite facilities to include the following information:<br/>                     A. The date of the transport;<br/>                     B. The identity of the waste generator;<br/>                     C. The identity of the waste transporter;<br/>                     D. The location of the waste pickup site;<br/>                     E. The type and volume of waste; and<br/>                     F. The name and location of the treatment or disposal site.<br/>                     Waste Generator Requirements. Any Operator that generates E&amp;P Waste that is transported off-site will maintain, for not less than 5 years, copies of each invoice, bill, or ticket, and such other records as necessary to document the requirements listed in Rules 905.b.(3).A??F. Such records will be signed by the transporter and provide</p> |  | Date: 05/20/2021 |
