General Comment:

UIC-MIT 2021 MIT Due Date 5-8-2021 Operator notified COGCC of intended day of procedure and began the process of preparing for the MIT on 5-7-2021. Upon entering the well with a slick line in order to perform the intended MIT, an obstruction in the tubing (well tubing is cemented in place) requiring a rig before MIT can be performed. Operator did attempt preparation for MIT prior to due date and a rig has been scheduled for drilling out obstruction in tubing/casing. Tubing treated as casing for MIT purposes. Process of performing the UIC/MIT will commence upon completion of repairs.
