General Comment:

COGCC Inspection Report Summary

On Monday 5/17/2021 at approximately 1000, I, Inspector Scott Ramsey, conducted a follow up inspection at TEP Robinson C, at Location # 335546 in Garfield county Colorado.

While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat and Wildlife Management Area. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for a tracking pad, there is no evidence of a tracking pad at time of inspection. Some C/A's from previous inspections documents # 700702261 and # 700701962 have been completed. During this inspection the following compliance issues were observed:

1. Location shows signs of lack of stabilization C/A is from previous inspections Documents # 7007002261 and 700701962 (C/A date 1/6/2021)

2. Staining at tank battery

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

This is a summary of inspection report.
