Document Number:

402402228

## Flowline System

The Flowline Report, Form 44, shall be submitted to register, report realignment, report removal from service, provide pre-abandonment notices, or report abandonment of Off-Location Flowlines, Flowline Systems, Produced Water Transfer Systems, or Crude Oil Transfer Lines or Systems as required by the 1100 Series Rules. The Form 44 shall also be submitted to register, report realignment, or report abandonment of Domestic Taps, and to report Grade 1 Gas Leaks from Flowlines per Rules 610 and 906.

## Operator Information

OGCC Operator Number: 100322

Contact Person: Rochelle Messick

Company Name: NOBLE ENERGY INC

Phone: (303) 228.4467

Address: 1001 NOBLE ENERGY WAY

Email: rochelle.messick@nblenergy.com

City: HOUSTON State: TX Zip: 77070

Is the Operator a Tier One member of the Utility Notification Center of Colorado (CO811) that participates in Colorado's One Call notification system? Yes ☒ No ☐

## FLOWLINE SYSTEM

## FLOWLINE SYSTEM IDENTIFICATION

Facility ID Number: 469879

Flowline System Name: Abandoned Flowlines

## FLOWLINE SYSTEM REGISTRATION

A representative legal location and associated latitude and longitude near the center of the Flowline System.

County: WELD

Qtr Qtr: NWNW Section: 11 Township: 4N Range: 64W Meridian: 6

Latitude: 40.331862 Longitude: -104.525465

GPS Quality Value: Type of GPS Quality Value: Measurement Date: 03/20/2004

## FLOWLINE DESCRIPTION AND TESTING

Date Construction Completed: 06/03/2012

Pipe Material: Carbon Steel

Bedding Material:

Native Materials

Max outer Diameter (inches):

Type of Fluid Transferred:

Multiphase

Max Anticipated Operating PSI:

Testing Pressure:

Test Date:

## Description of Corrosion Protection:

Prior to 2012: flowlines installed were of various specifications and standards and cathodic protection systems were an incompatible corrosion monitoring method.

After 2012: flowlines are installed with a galvanic protection system utilizing anode beds and with adequate FBE (Fusion Bonded Epoxy) coating, inspected with a Holiday Detector.

## Description of Integrity Management Program:

Prior to 2018: flowlines were pressure tested annually and given a visual inspection.  
After 2018: flowlines are pressure tested upon installation and annually thereafter.  
Sites are visually inspected monthly.  
Cathodic protection testing is completed on flowlines annually.  
Continuous pressure monitoring is utilized on flowlines to indicate large failures and flowlines are equipped with automatic emergency shutdown.

**Description of the construction method used for public by-ways, road crossings, sensitive wildlife habitats, sensitive areas, and natural and manmade watercourses (i.e., open trench, bored and cased, or bored only), if applicable.**

All lines are installed through open trenching. In public byways, roadways and water courses, the lines are bored in a sleeve for single lines, or in a casing for multiple lines. Unless specifically required by the public byway, roadway or water course owners, corrosion protection (FBE Coating, anodes, annual pressure testing) is applied to each individual transport line but not to the bore sleeve or casing. Flowline alignments are evaluated for State and Federally sensitive wildlife and plant species.

#### **FLOWLINE SYSTEM REALIGNMENT**

Date: 05/19/2020

#### **Description of Realignment:**

This submittal incorporates approximately 230 flowlines that were previously registered individually as active. These flowlines have actually been abandoned since 2019 and prior. So this shape file reflects the abandonment dates of these previously individually registered flowlines. See line 563 to the end for the added lines.

#### **OPERATOR COMMENTS AND SUBMITTAL**

Comments This submittal incorporates approximately 230 flowlines that were previously registered individually as active. These flowlines have actually been abandoned since 2019 and prior. So this shape file reflects the abandonment dates of these previously individually registered flowlines. See line 563 to the end for the added lines.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct and complete.
