General Comment:

This is a final reclamation inspection. Document 2592144 describes plugging the well on 12/1/2010. The following compliance issues were observed:

- Location is not reclaimed. Per COGCC rules, final reclamation should have been conducted no later than a year of plugging the well (12/1/2011)
- All equipment needs to be removed and properly abandoned. This includes any inactive flowlines or risers not abandoned that serviced the well.
- Weeds need to be controlled.
- Trash dumped on unmanaged sight needs to be removed and properly disposed of.
- Well pad and access road need to be reclaimed to COGCC reclamation standards per 1000 series reclamation rules.

Corrective action date for all corrective actions listed above: 7/1/2021
