## PROPOSED SAMPLING PLAN

### Proposed Soil Sampling

Will soil samples be collected as part of this investigation? ( Number, type (grab/composite), analyses, and locations of samples ):

Caerus will conduct field screening at both ends of each dumpline to determine if impacts associated with this equipment have been encountered. Caerus will conduct the field screening and soil sampling, if applicable, following COGCC Rule 911.a.(4) Operator Guidance dated January 4, 2021.

### Proposed Groundwater Sampling

**OPERATOR COMMENT**

Due to settling concerns with the existing dumplines found on the location, Caerus will abandon the two dumplines in place following COGCC Rule 1105. No loss of pipe integrity or spill has been identified, rather Caerus is upgrading the dumplines at this site as preventative maintenance prior to a loss of integrity.

I hereby certify all statements made in this form are to the best of my knowledge true, correct, and complete.

	Per Rule 913.b.(2), the Operator will conduct sampling and analysis of soil, and groundwater--if encountered, to determine the horizontal and vertical extent of any contamination in excess of the cleanup concentrations in Table 915-1 for soil and groundwater. The Operator shall analyze samples for the complete Table 915-1 list and shall delineate the extent of impacts using the Table 915-1 Protection of Groundwater Soil Screening Level Concentrations.
	Operator shall comply with Rule 915.e.(2).B by collecting samples from areas most likely to have been impacted and determining the horizontal and vertical extent(s) of contamination.
	Comply with COGCC Rule 1105 flowline abandonment requirements, including notification and verification requirements.
	If historical impacts are discovered, operator shall report historical impacts via an eForm 19 (Initial w/ Supplemental) and shall collect representative soil samples for the complete Table 915-1 list. This eForm 19 may include a closure request referencing the Remediation Project number assigned upon approval of this report.
