Inspected Facilities:

Facility ID	Type	Status	Status Date	Well Class	API Num	Facility Name	Insp Status
307864	LOCATION	AC			-	SPRINGER-634S65W 23NENE	RI

General Comment:

This is a drone inspection to document recent flood event in the area which has caused erosion and damage along the road leading to the location. The recent flood event has washed out the cement crossing at the ephemeral creek. Only a small portion of the road was inspected due to drone technical issues. It was observed that repairs were being performed in the area at the time of inspection. See attached photos.
