Chris,

I am trying to clean some things up in the database. I found this pit that has incompect/wong information on it.

Can you answer the following:

Is there a Collection Station #14?

Does it have a Pit?

Can you give me a general lat/long for CS 14?

Thanks,

Chris,

Well I stubbed my toe on it now, I found 14 more facilities. It was a requirement at one point to register pits, but most of the information was incomplete. There are no documents in the database, most do not have lat/long. Attached is the list I pulled from our database, it has the facility #'s.

I am trying to relate the facility Id that we have with an actual pit on the ground. I can update the information from email, I do not need a Form.

Please provide the following for each Collection Station.

Is there a pit at the CS #?
What is the lat/long of the CS#?

- CS 4
- CS 5
- CS 6
- CS 9
- CS 10
- CS 12
- CS 13
- CS 14
- CS 15

CS 16
CS 17
CS 19
CS 20
CS 33
CS 34

Kris,

Hope you are doing well. Please see my replies below-highlighted.

Chris
