Comment: The abandoned facility near the County Road has not been reclaimed and consists predominately of undesirable weeds. Soils appear to be compacted in this area. The fence has not been installed back to the original position. There is vegetation establishment along the access road however there are multiple berms along the former road that need to be leveled and reclaimed. The location consists predominately of undesirable weeds which must be controlled. The location will need to be reseeded to establish a desirable vegetation cover.
