<p>COGCC Inspection Report Summary  On Thursday July 10 2021 at approximately 2:03PM, I, Inspector Randy Silver,  Conducted an on-site follow up inspection per doc#693502741.  Location: UPRR 43 Pan AM B #8  Operator: KP Kauffman  API#: 123-09067  County: Weld  While there, I observed a TA well site.  During this inspection the following possible compliance issues were observed:  Unused equipment: Rule 606 Corrective action date of 07-27-20  Flowline transfer lines: Rule 1101 a Corrective action date of 07-27-21  Weather conditions: Clear and hot.  This is a follow up inspection, at time of inspection it appears a new well head sign was  installed but flowlines have not been bull plugged or LOTO. Well head is still surrounded by  junk and debris. Weeds are overgrown on location.  A follow up on this site inspection needs to be conducted to ensure the  compliance issues have been corrected to comply with COGCC rules.  This is a summary of inspection report.</p>	silverr	06/10/2021
