<p>COGCC Inspection Report Summary  On Wednesday June 16, 2021 at approximately 3:17PM, I, Inspector Randy Silver, conducted an on-site inspection.  Location: Frank J Vogl Nav #2  Operator: KP Kauffman  API#:123-08897  County: Weld  While there, I observed a shut in well site.  During this inspection the following possible compliance issues were observed:  Mechanical issue: Rule 608 e Corrective action date of 7-16-21 See photo 3,4,5,6  Unused equipment: rule 606 Corrective action date of 7-16-21 See photo 3,4,5,6  Riser: Rule 1101a Corrective action date of 7-16-21 See photo 7  Weather conditions: Dry and hot.  This well appears not to be producing due to the flow line valves being LOTO. Submit reason for valves being LOTO. Tank battery is located off site GPS40.08535, -104.87841  Spindle Consolidation Battery #6.  A follow up on this site inspection needs to be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.  This is a summary of inspection report.</p>	silverr	06/16/2021
