General Comment:

On 6/15/2021, Reclamation Specialist Trujillo conducted an interim reclamation and storm water inspection at Gunnison Energy's Federal 30-4 location in Gunnison County, Colorado.

This inspection is a followup to #696202645 and #696202706 to document compliance with the following corrective actions

606: Good Housekeeping (5/22/2021)

608.e: Mechanical Conditions (5/22/2021)

912: Spills and Releases (5/22/2021)

1003.b: Reclamation of areas no longer needed for production (6/7/2021)

1003.f: Noxious weed management (6/24/2021)

It was observed in this inspection that the Location remains out of compliance with COGCC Rules and corrective actions.

Refer to the "Location" and "Reclamation" sections of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Corrective Action:

Date: _____

Good Housekeeping:

Type	STORAGE OF SUPL		
Comment:	<p>Inspection #696202645 and 696202706 observed various trash, debris and unused equipment stored throughout the Location.</p> <p>It was observed in this inspection that the various trash, debris and unused equipment remains on the Location; original corrective action and date remains applicable.</p>		
Corrective Action:	Comply with Rule 606	Date:	05/22/2021
Type	WEEDS		
Comment:	<p>Previous inspection observed noxious weeds (Canada thistle) on the Location, and required Operator to comply with Rule 1003.f.</p> <p>It was observed in this inspection that other noxious weed species (Hoary cress, Musk thistle, Bindweed) have established on the Location. Inspector observed signs indicating herbicide application was performed, though it is unclear if the recent weed management was adequate.</p> <p>Continue noxious weed monitoring/management. A followup inspection will be performed to determine compliance with Rule 1003.f</p>		
Corrective Action:		Date:	

Overall Good: ☐**Spills:**

Type	Area	Volume		
Comment:	<p>Previous inspections observed equipment on the west end of the Location was leaking, resulting in a spill/stained soils in the immediate area of the equipment. Previous inspection observed work to address the mechanical issues was in process.</p> <p>It was observed in this inspection that the stained soils have been cleaned, however mechanical issues appear to remain, and new fluids have been observed at the base of the equipment. Work to control/contain releases, and to ensure good mechanical condition of the equipment appears to be insufficient.</p> <p>Corrective actions will remain applicable.</p>			
Corrective Action:	Control and contain spills/releases and clean up per Rule 912.a. Securely fasten all valves, pipes, fittings, and Production Facilities to ensure good mechanical condition, inspect at regular intervals and maintain in good mechanical condition per Rule 608.e.			Date: 05/22/2021

In Containment: No

Comment:

Previous inspection observed stained soils in front of a temporary diesel tank. Operator was required to comply with Rule 912.a.

It was observed in this inspection that the stained soils have been cleaned/removed. This corrective action has been addressed.

Comment:	<p>Previous inspection observed that the integrity of the containment BMP at the tanks was inadequate.</p> <p>It was observed in this inspection that the secondary containment BMPs appears to remain inadequate to contain 150% of the volume of the tank. It was also observed that secondary containment for the other two tanks on the Location also appears inadequate.</p>			
Corrective Action:	<p>Repair or install berms or other secondary containment devices per Rule 603.o. Ensure secondary containment is adequate to contain 150% of the volume of the tank(s).</p> <p>If Operator believes containment is adequate in accordance with Rule 603.o, the Operator will be required to submit calculations and figures (attached to a FIRR) including the diameter of the tanks, showing secondary containment complies with Rules.</p>			<p>Date: <u>06/24/2021</u></p>

COGCC Comments

Comment	User	Date
<p>INTERIM RECLAMATION COMMENTS</p> <p>Previous inspections observed areas on the northwest, and southern end of the Location require reclamation in accordance with Rule 1003.b by 6/7/2021.</p> <p>Inspection #696202645 also observed that a sediment trap/pond was planned for construction on the southern areas of the Location as part of the construction of the Trail Gulch Unit 1090 /30.</p> <p>COGCC notified Operator within previous inspections, and within a phone meeting with the Principal Agent, that the corrective action to conduct interim reclamation will remain applicable for the identified areas, and for unused areas on the south end of the Location not part of the sediment trap, unless BMP is not constructed, at which point all unused, disturbed areas will remain subject to Rule 1003.b.</p> <p>It was observed in this inspection that interim reclamation of areas not needed for production has not been performed in accordance with 1003 rules; equipment observed stored on the northwestern areas. Trailer observed stored on the southern areas, sediment trap/pond has not been constructed.</p> <p>This corrective action has not been addressed and remains applicable.</p>	trujilloam	06/17/2021
