COGCC INSPECTION SUMMARY:

FIR Document Number: 691201503
Inspection Date: 06/18/2021 FIR Submit Date: 06/21/2021 FIR Status: _____

Inspected Operator Information:

Company Name: KP KAUFFMAN COMPANY INC Company Number: 46290
Address: 1675 BROADWAY, STE 2800
City: DENVER State: CO Zip: 80202

LOCATION - Location ID: _____

Location Name: _____ Number: _____ County: _____
Qtrqtr: NESW Sec: 20 Twp: 1N Range: 67W Meridian: 6
Latitude: 40.035140 Longitude: -104.917660

FACILITY - API Number: 05-123-00 Facility ID: 479232

Facility Name: Paul Heinze #1 Flowline Number: _____
Qtrqtr: NESW Sec: 20 Twp: 1N Range: 67W Meridian: 6
Latitude: 40.035140 Longitude: -104.917660

CORRECTIVE ACTIONS:

3 CA# 152025

Corrective Action:

Date: 07/21/2021

Operator will install a sufficient number of monitoring wells to both characterize the extent of impacts to Groundwater and to determine the Groundwater gradient. Groundwater monitoring wells will be installed in source areas, and immediately downgradient and cross-gradient of source areas at a distance appropriate to determine the contaminant plume geometry. At least one monitoring well will be installed upgradient of the source. Additional monitoring wells may be required upgradient and cross-gradient of the contaminant plume to completely define the extent of impacts and to demonstrate the Point(s) of Compliance ("POC") with Table 915-1 and WQCC Regulation 41.

Operator will provide notice to COGCC EPS Kari Brown (kari.l.brown@state.co.us) at least 48 hours prior to backfill, installation of monitoring wells, or any sampling events performed on location. Note that samples collected must be analyzed for Table 915-1 parameters

Response: FACTUAL REVIEW REQUEST

Basis for Review: Corrective action dates are not attainable

Operator Comment: During scheduled soil sampling on June 18, 2021, groundwater was not present in the excavation area. Piezometer was installed at location on June 17, 2021, for groundwater characterization as required by COGCC. Boring was completed to 14 ft. BGS due to refusal from shale/bedrock. No groundwater was encountered during piezometer installation. Piezometer was checked by third party on June 21, 2021. No groundwater was present. Based the recorded absence of groundwater from recently installed piezometer and open excavation, additional groundwater characterization is not warranted.

COGCC Decision: _____

COGCC Representative: _____

OPERATOR COMMENT AND SUBMITTAL

Comment: _____

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.

Print Name: Max Knop
