General Comment:

This is a followup reclamation and stormwater inspection. Operator submitted FIR Resolution Form documents response to 2020 corrective action. However, corrective action to control weeds from 2020 inspection is only partially addressed as approximately 50 musk thistles observed, largely in the southern project area. Corrective action to control weeds remains. Corrective action date is back-dated to 8/23/2020 as corrective action is not adequately addressed. It is the expectation that weeds be immediately controlled to prevent flowering and seed dispersal, and to bring the location into compliance.

<p>Comment: Stormwater and erosion controls were assessed during this inspection and active erosion was not observed. These controls are assessed for whether they are functioning at the time of the inspection only. A determination as to whether or not they are adequate for the location over the duration of production is not made. Continue monitoring and managing stormwater and erosion controls to ensure compliance with stormwater regulations.</p> <p>Corrective Action: <input type="text"/> Date: <input type="text"/></p> <p>Pits: <input checked="" type="checkbox"/> NO SURFACE INDICATION OF PIT</p>
