Weeds present **Fail** Subsidence Pass

1004.d. FINAL VEGETATION TRANSECT

TRANSECT RESULTS OF DISTURBED AREA% _____

TRANSECT RESULTS OF REFERENCE AREA% _____

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

Comment:

	Though vegetation is filling in, it is not yet uniform across the site, especially when considering the un-reclaimed access road. Surface Owner, State Land Board had given a Contractor permission to utilize the site as staging area in 2020; this use opened up the site to traffic and compromised portions of vegetation on former Pad area. Operator has not placed barriers to exclude traffic (as recommended), nor are reclamation efforts evident on access road. Noxious and ruderal weeds remain a concern on road length. Location cannot be Passed for FR until road is re-claimed, vegetated.	
Corrective Action:	Reclaim access road and other impacted areas of Location. Reclamation activities to be complete by 10/30/20. CA Date left at date from 2020 Inspection. Continue implementing Weed control program.	Date 10/30/2020
Overall Final Reclamation	Fail	Well Release on Active Location <input type="checkbox"/> Multi-Well Location <input type="checkbox"/>
