General Comment:

On 6/30/2021, Reclamation Specialist Trujillo conducted a final reclamation and stormwater inspection at Eagle Operating Inc.'s Cal-Up #37-E location in Rio Blanco County, Colorado.

This inspection is a followup to #692401236 and #696202235 to document compliance with the following corrective actions:
-Comply with 1004 Rules

The following compliance issues were observed during this inspection:
1004.e: Noxious weeds

Refer to the "Reclamation" section of this inspection report for additional details.

Refer to the photo-documentation of the observed compliance issues attached to this report.

Any corrective action(s) from previous inspections that have not been addressed are still applicable.

A follow up inspection on this site will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

Comment:

Unclear if additional reclamation has been performed; no CA complete resolution has been submitted. Striations in soil suggest additional seeding with use of a drill seeder.

Subsidence issues at well not observed.

Reclamation Specialist conducted germination transects and observed that desirable plant germination was not occurring over the reclamation area, or negligible (~0.08 seedlings per 1/2 sq. meter); additional seeding likely required; a followup inspection will be conducted in a future growing season to determine compliance with 1004 rules.

Noxious weeds (Halogeton) establishment remains an issue on Location; noxious weeds observed in 15% of quadrats.

Corrective Action:

Comply with Rule 1004.e

Date **07/15/2021**
