COGCC INSPECTION SUMMARY:

FIR Document Number: 700600271

Inspection Date: 06/22/2021

FIR Submit Date: 06/24/2021

FIR Status: \_\_\_\_\_

Inspected Operator Information:

Company Name: KTM OPERATING LLC

Company Number: 10722

Address: 1246 BAYOU LACARPE ROAD

City: HOUMA State: LA Zip: 70360

LOCATION - Location ID: 414280

Location Name: CRAIG Number: 6-4 SWD County: \_\_\_\_\_

Qtrqr: SENW Sec: 4 Twp: 14S Range: 55W Meridian: 6

Latitude: 38.858741 Longitude: -103.563620

FACILITY - API Number: 05-073- -00 Facility ID: 479428

Facility Name: Craig 6-4 SWD Number: \_\_\_\_\_

Qtrqr: SENW Sec: 4 Twp: 14S Range: 55W Meridian: 6

Latitude: 38.858741 Longitude: -103.563620

CORRECTIVE ACTIONS:

1 CA# 152208

Corrective Action: Update active remediation 17974 with plan to delineate and remediate impacted soil off the southeast corner of the tank battery.

Date: 07/02/2021

Response: CA COMPLETED

Date of Completion: 07/01/2021

Operator Comment:

KTM made two attempts scrape the remaining impacted soil that is in the drive area (outside of the dike). Due to numerous rain events, the low-lying area was full of water. In addition, water from the county road was flowing to this low lying area. Operator installed a stormwater diversion to prevent water from county road from entering the pad. Standing water was then removed via vac truck and placed into the water tanks. Contractor scraped an additional 6 inches of impacted material and confirmation sampling of the impacted location outside of the berm is scheduled to occur during the week of 7/5/21 depending on weather conditions. Sampling results and successful remediation will be reported to COGCC on the appropriate form. Metal berms around the tank battery will be

upgraded with a 30mm plastic liner around the perimeter of the berms.

KTM will evaluate the potential impacts to the southeast of the location with excavation and sampling during the week of 7/5/21 depending on contractor availability and weather conditions. Sample results and any potentially impacted areas will be added to the existing remediation project #17974.
