Operator Comment: These lines were put in place to have the ability to discharge any excess braden head pressure at the well heads to our sales header at the back of the production skids, allowing us to avoid venting any excess pressure to atmosphere and avoid any potential fluids released on site. We'd like to keep them in place, but they have been capped.

COGCC Decision: Approved

COGCC Approved VIA Inspection #696202864.
