 While there, I observed normal production operations.  
 During this inspection the following compliance issues were observed:

- 2) Unmarked deadman with a corrective action date of 7/21/21.

Gully erosion continues down location cut slope for approximately 100 ft. to tree line with a corrective action date of 7/21/21.

- The Location is located in a high priority habitat area. Additionally the location and access road is approximately 400 yards from Parachute creek. All drainages from location contribute to Parachute creek with an approximate elevation change of 300 Ft.

A follow up on this site inspection needs to be conducted to ensure the Compliance issues have been corrected to comply with COGCC rules.
