General Comment:**COGCC Inspection Report Summary**

On Thursday 7/15/2021 at approximately 1000, I, Inspector Scott Ramsey, conducted a follow up inspection at TEP Specialty 12C, at Location # 335147 in Garfield county Colorado.

While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat and Wildlife Management Area. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for a tracking pad, there is no evidence of a tracking pad at time of inspection.

C/A's (location stabilization) from previous document # 700702176 has not been completed.

During this inspection the following compliance issues were observed:

1. Location still shows signs of lack of stabilization/compaction from previous inspection therefore C/A date remains the same (2/19/2021)
2. Unmarked dead man
3. Debris on location

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.

This is a summary of inspection report.
