COMMENTS:

On 6/28/2021, a Form 17 was completed with a starting pressure of 7 psi and an ending pressure of 0 psi. Water was present for most of the test. A sample was collected, and those results will be submitted once the lab has finished their analysis. Due to the continuous water flow, we are electing to plug this well by 12/28/2021. We will continue to monitor and blow down as necessary until the well has been plugged.
