General Comment:**COGCC Inspection Report Summary**

On Friday 7/23/2021 at approximately 1000, I, Inspector Scott Ramsey, conducted a Follow up inspection at TEP Valley Farms B, at Location # 311643 in Garfield county Colorado.

While there, I observed normal production operations. All meters have been calibrated on location within the past year. This location is within or in close proximity to a CPW Density/High Priority Habitat, black bear, NSO habitat and Wildlife Management Area. Operator (TERRA) has provided there Piceance Basin Storm water Manual of BMP's (SC-4) for a tracking pad, there is no evidence of a tracking pad at time of inspection.

Some of the C/A's (battery signage and unmarked dead men) from prior three inspections documents 700701964, 700702234 and 700702708 have been completed. The C/A (Erosion at pig station) STILL has NOT been addressed. This is the forth inspection for this C/A.

During this inspection the following compliance issues were observed:

1. Erosion at pig station still has not been addressed therefore C/A date remains the same (1/6/2021)

Refer to photograph of observed compliance issue.

A follow up on this site inspection will be conducted to ensure the compliance issues have been corrected to comply with COGCC rules. This is a summary of inspection report.
