Springfield, CO 81073

Dear *Mr. Linn*,

October 14, 2020 post closure inspection was completed by Pike and San Isabel National Forests and Comanche and Cimarron National Grasslands (PSICC) On-Scene Coordinator Steven A. Sanchez at a closed well pads operated by Meadow Deep LLC. This well Meadow Deep is located at 34S 46W S28. From the observations I made, reclamation meets all the requirements of the APD. Observations include recontouring, soil preparation, seeding, revegetation success, noxious weed control, free of oil or salt contaminated soils, and pit closure practices were all successfully completed. Meadow Deep LLC has asked for the bond to be released and I concur as reclamation efforts meets PSICC Standards.

Pics of Meadow Deep

Should you have any question please call me at Steven A. Sanchez at 719-553-1518.

Sincerely,
