Valley Republic Bank
Attn: Aytom Salomon
5000 California Ave., Suite 100
Bakersfield CA 93308

Dear Mr. Salomon,

The private mineral negotiated agreement for the well site "Cottonwood #1" between Meadow Deep, LLC and the U.S. Forest Service (USFS), Comanche National Grassland has been completed. Meadow Deep, LLC completed the final restoration of the Cottonwood #1 well site and the associated improvements. A site inspection by USFS staff was completed on October 14, 2020. See attached reclamation memorandum dated November 24, 2020. I have determined that there is no need now or in the future for the USFS to draw upon the credit established for Meadow Deep, LLC in relation to the Cottonwood #1 private mineral agreement. Please release any funds related to the letter of credit number 2019-51.

Please contact me, John Linn, Comanche District Ranger, at john.linn@usda.gov or (719) 648-2686, if you have any questions. Thank you.

Sincerely,

JOHN LINN
DISTRICT RANGER
