434b. Temporary Abandonment.
(1) A Well may be temporarily abandoned after passing a successful mechanical integrity test pursuant to Rule 417 upon approval of the Director, for a period not to exceed 6 months provided the hole is cased or left in such a manner as to prevent migration of oil, gas, water, or other substance from the formation or horizon in which it originally occurred. All Temporarily Abandoned Wells will be closed to the atmosphere with a swedge and valve or packer, or other approved method. The Well sign will remain in place. If an Operator requests temporary abandonment status in excess of 6 months the Operator will state the reason for requesting such extension and state plans for future operation. A Form 4, or other form approved by the Director, will be submitted annually stating the method the Well is closed to the atmosphere and plans for future operation. Subsequent mechanical integrity tests will be required at the frequency specified in Rule 417.
