FIELD OPERATIONS NOTICE

The Form 42 shall be submitted as required by Rule, Notice to Operators, Policy, or Condition of Approval. A Form 42 Update shall be submitted to revise the scheduled date or time on a previous Form 42 - Advance Notice of Field Operations. A Form 42 Update must be for the same well, location, or facility and for the same Field Operation as a previous Form 42. NOTE: Operator's Contact for Advance Notices of Field Operations should be available 24 hours a day, 7 days a week and should have the most current scheduling information for the operation. Operator's Contact for other notices should be able to respond to questions regarding the reported information.

Update of a previous Form 42 Notice NO

FLOWLINE PRE-ABANDONMENT - 30-day notice

On-Location Flowline will be removed on this date: 10/05/2021
Is the estimated duration of the Flowline Abandonment operations for this Location anticipated to last for longer than one day? Yes If YES, describe the estimated anticipated duration of these operations:

Line abandonment will be 10/5 - 10/8/2021. This is an "off location registered flowline". Registration has been applied for, but not approved, thus there is no available flowline facility ID. The endpoint of the line is the East Hiawatha Compressor station (facility ID 120693), but it doesn't have a location ID, therefore abandonment cannot be entered in a Form 44. This is a fuel gas line, aquired but never used or pressure testing by Wexpro due to holes. No other info was given by seller.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct and complete.
